LYNEL THERMO

*Lynel thermo collection
the innovative
covering material*

Meeting of the technical and aesthetic
requirements of the sectors for :

- Agendas
- Photo albums
- Stationery and bookbinding
- Packaging

Lynel Thermo Collection

Lynel Thermo

5 Colours available in 6 patterns

Lynel Thermo fur 729

Environmental facts :

- **LYNEL Thermo SG** references use a backing paper granted by its producer with **FSC label** and produced with **ECF** bleaching agent that eliminates pollution by toxic substances in paper-mills waste water,
- Its **pH is slightly basic**, which is particularly relevant in areas where the preservation of documents, photos, archives... is requested,
- **LYNEL Thermo** is totally free of heavy metals, aromatic amines, formol derivatives and, mostly, totally **free of phthalates**,
- **LYNEL Thermo** is covered with **Rayon-viscose** textile fibres produced from **wood-cellulose**; the origin of the wood is always identified (eucalyptus),
- this **high-quality** covering material conforms with **safety requirements of European standard EN71 part 3 & part 9** (toys' regulation).

"Heat burnishing effect"

Temperature between 140 and 180°C,
with a strong pressure and medium
pressuring time (0.1 to 1 second)

Heat burnishing effect available in 6 colours
High resistant on scratches and dust, ideal for
agendas and stationery

Screen printing

The only precaution is to use textile
screen printing inks

LYNEL THERMO references
are available on **SG** substrate (paper)

Important :

*LYNEL doesn't offer "THERMO" heat-burnishing
effect after hot-stamping.*
